Dec 13 2006

Let's face it – playing Santa for business partners, co-workers and other professional affiliates can be a challenge. All too often, an attempt at merry making prompts the dreaded, last-minute mall crawl of desperation that usually results in spending too much.

To help business people gift with ease and confidence this year, albeit unconventionally, CableOrganizer.com offers this unique spin on gotta-get-em gadgets and gear that will keep the recipient duly appreciative all year through:

- iPod cord control (price range: \$4 to \$9) – The Cableyo POP is one solution designed to store and protect iPod and other ear bud cords. This tiny cord winder keeps a headset organized and ready for use, and can be fastened to clothing. It also has a suction cup for stationary use. EarPod is another iPod headset accessory that houses the wires in a plastic round enclosure to keep them from twisting and tangling. The felt-lined centre can store ear buds and plug to protect them.
- Label me (price range: \$7 to \$799) – While a label printer may not be on everyone's wish list, these gadgets are a luxury that people become die-hard addicts to. With dozens of makes and models to choose from, label printers have a myriad of possible professional and personal uses from filing to scrapbooking to luggage tags to love notes.
- Wire management (price range: \$0.65 to \$75) – For that person who does nothing but complain about that rat's nest under his or her desk, cable management products are effective and inexpensive in solving the problem. A variety of cable ties, Velcro wraps, tamers and other cable managers and ties show that you care. The One Man Tied cord organizer is a unique cord manager, making it an especially great gift idea for use in dorms, offices, households, and any other desktop environment.
- Wireless laptop devices (price range: \$49 to \$69) – Many people prefer a laptop computer for mobility – especially those who travel a great deal. But, after using the touch pad on a laptop for a few days, wrists, hands and fingers ache. A Belkin rechargeable wireless optical mouse is a great gift since it's ergonomic, cordless, works for right and left handed users, and features the popular scroll wheel.
- Universal (price range: \$129 to \$269) – Get him a stocking stuffer he really wants – a universal remote control that will allow him to relax to the fullest extent in his easy chair. The Logitech Harmony is an advanced remote that can control all entertainment systems. Its Web Wizard feature makes setup programming a snap.
- Charging (price range: \$19 to \$32) – From cell phones to iPods to your child's GameBoy, gadgets reign supreme. But most need to be charged to remain functional. Multi-device chargers such as the Power Station Traveller can charge up to three small portable devices simultaneously.
- Armour all (price range: \$7 to \$16) – For that person who's particularly hard on their portable electronics, the Pelican micro case series is a great solution. With a variety of colours to choose from, these polycarbonate watertight, impact-absorbing cases protect small electronics and other valuables from wear, accidental drops and other damage.
