

# It's easy to go wireless

26/07

**Cable Keeper**

A fun and inexpensive way to keep those jumbled cords in the home office at bay, Animal-Design Wire and Cable Keepers are the newest offering for home organization.

Choices include cats with silly faces, a functional fish that neatly wraps cords around its scales, and a fat frog that could double as a desktop conversation piece.

Ranging in price from \$3 to \$10, the colourful, plastic cord organizers are just the ticket to keeping cable and wires from snaking all over the living room — and for those with an eye for good design, the Cable Turtle Organizer is an award-winning

design that's featured in the Museum of Modern Art's design collection. Simply wind excess wire around the open organizer, close the shell, and all unnecessary wires are neatly tucked away.

Visit [CableOrganizer.com](http://CableOrganizer.com) for more information, or to order.
