3. **earPod** is another great iPod headset accessory that houses the wires in a plastic round enclosure to keep them from twisting and tangling. The felt-lined center compartment on the earPod can even store ear buds and plug to protect them from damage or getting lost. 700 iPod users were recruited to assist in designing this product to cater to the needs of the everyday iPod user.

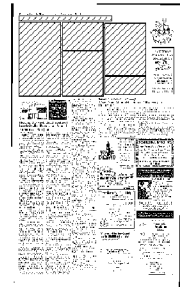

When you are not using the ear buds or do not need the entire length simply coil the wire around the earPod. This will avoid having tangled and knotted wires in the bottom of your bag or pocket.

The center compartment on the earPod can store the ear buds and plug and the felt lining in this compartment protects the ear buds from any damage. Available colors white, black or pink.
